## Section 4 First Aid Measures

---

**Eye contact:** Flush eyes with water for at least 15 minutes.

**Skin contact:** Wash with soap and water.

**Ingestion:** If the person is conscious and able to swallow have them drink water to dilute. Call a poison control center, physician, or emergency room.

**Inhalation:** No specific treatment is necessary since this material is not likely to be hazardous by inhalation. If exposed to excessive levels of vapors or mists, remove to fresh air and seek medical attention if cough or other symptoms develop.

---

## Section 5 Fire Fighting Measures

---

**Flash Point (method):** >200° F

**Extinguishing Media:** Use foam, carbon dioxide, or water spray when fighting fires involving this material.

**Protection of Firefighters:** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

---

## Section 6 Accidental Release Measures

---

**Clean Up Methods:** Keep unnecessary people away. Floors may be slippery; care should be exercised to avoid falls. Dike and contain spill with inert material (sand, earth, etc.) and transfer liquid to containers for recovery or disposal.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

---

## Section 7 Handling and Storage

---

**Handling:** Protect against physical damage.

**Storage:** Store at ambient temperature. Keep from freezing.

---

## Section 8 Exposure Controls / Personal Protection

---

**Engineering Controls:** If necessary, use general room dilution ventilation, process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

---

---

## **Personal Protective Equipment (PPE):**

**Eye Protection:** Eye contact should be avoided. Where eye contact is likely, wear chemical splash goggles and/or full-face shield.

**Skin Protection:** None needed under normally anticipated use conditions. Individuals who have skin sensitivities should wear rubber gloves and other protective clothing to prevent skin contact.

**Respiratory Protection:** None needed under normally anticipated use conditions. If vapor levels exceed allowable exposure limits, wear a NIOSH approved air-purifying respirator with an organic vapor cartridge.

**General Hygiene Practices:** Avoid eye and skin contact. Avoid breathing vapors. Wash hands before eating and drinking.
