Section 5 - Fire Fighting Measures

Flash Point (°F/°C)	Flammable Limit (vol%)	Auto-ignition Temperature (vol%)
>300 °F	LEL: N/A UEL: N/A	N/A

Method:

Extinguishing Media: Carbon dioxide, dry chemical foam, water can be used to cool fire exposed containers.
 Fire Fighting Instructions: Evacuate all personnel and use protective equipment, including self-contained breathing apparatus
 Unusual Hazards: When heated to decomposition, it emits highly toxic nitrous oxide.

Section 6 - Accidental Release Measures

Spill or Release Procedures - For small spills, wipe up material with a chemical-resistant or damp rag; wash rag with copious water after use. Flush away any remaining traces with water.

For large spills, keep personnel away from area. Remove ignition sources and ventilate the area. Dike large spills and remove to salvage tanks or sealed containers. Prevent washings from entering all waterways. Disposal should be carried out in compliance with federal, state and local regulations regarding health, air and water pollution. Contact authorities in the event of a large spill.

Section 7 - Handling and Storage

Handling Avoid contact.
 Storage Keep container closed and away from heat, sparks, and open flame. Keep in a cool, well-ventilated area.
